INNOVATION POLICY DEVELOPMENT UNIT (IPDU)

Innovation Policy Development Unit (IPDU)

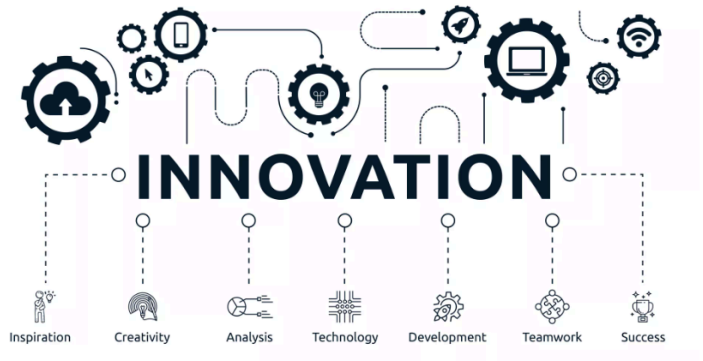
The IPDU centres on modernizing the management of people, work, systems, processes, and changes as essential inputs for improved results and will be delivered through a system of engagement of technical people and innovation teams.

Vision

More, Better, Faster, Smarter, Stronger, Wider public services through Innovation Together.

Mission

Striving to empower and support public servants and public organisations through policy, leadership, and management innovation.



Our Functions

- Initiate innovation activities in line with innovation strategy
- Collaborate with stakeholders to conduct needed reforms in the public sector
- Introduce innovations that transform the public service culture in terms of ethics, behavior, and performance
- Introduce innovations that transform the public organisations to make them more effective and high performing
- Support OPSC to delivery their functions and responsibilities effectively
- Take lead in the leadership role to promote and support innovation in the public sector
- Build and strengthen interaction, partnership between government and its stakeholders
- Conduct innovation workshops and trainings with internal and external stakeholders
- Create conditions for productive stakeholder interactions in order to generate new ideas for innovation

Our Focus Area of Innovation

IPDU Leadership- Collaboration and Influence

The Innovation Teams Objective

To carry out innovation management in the public sector by applying appropriate innovation related processes to come up with innovative solutions in order to enable public servants and public agencies to improve the performance of the public sector thereby achieving stated innovation outcomes.
